

Grace Li Wang's "Radiance in Nature" Series

Grace Li Wang is an artist renowned for her ability to capture the radiance of nature in exuberant expressionist and impressionist works. She wants her art to energize and enrich the spirit in each of us. Her vibrant colors and graphic forms infuse a sense of radiant vitality in an imaginative and captivating world.

Artist Statement:

I want to express the depth and breadth of my feelings on the wondrous Radiant Sun and all that it has given to us in sustaining and nurturing us.

My strong passion for this theme is captured by my direct, bold and dramatic manner of painting, often with large brush stroke in strong hues and tones. I use the mixed media of acrylic and oil to create works using often mainly of primary colors, while playing down the neutral or secondary tones. My painting movements are daring and quick, bright and luminous, flamboyant and full. I want to convey the ethereal quality of the Radiance of Sun in my distinctly expressive and energized painting style.

Throughout the human history, virtually every culture has worshipped or honored the Sun - and my wish is to remind us today again of our everlasting quest to celebrate life and protect nature with our glorious and radiant Sun.
